www.ourbluetooth.com

In this book we will be sharing some hidden ways of making money online and like I said unlike section 2 where they are too simple to start and won't take you much of your time and resources.

AFFILIATE MARKETING

This simply means, you pick someone's product and sell it on his behalf and then for every sale that you make you will get paid. The reason some **people love** this business is because:

- [1] You don't need to create your own product
- [2] You won't need any kind of customer support as the merchant will do all that
- [3] You can make money from niches you don't even know how they work.

I love this business too and in 2009 I am going to put in some work on it. For example I have a mentor called Steven Wagenheim the owner of <http://www.honestincomeprogram.com/> he puts 80% of his energy on just affiliate marketing and as a result he makes about \$10,500 a month from affiliate marketing and he works just 5 hours a day. Yes 5 hours a day for \$10,500 a month is not bad at all and I will also add here that he doesn't pay for advert, that means if he decided to put some money in

advertising like Google AD words he will be able to shoot his income to \$20,000 or more. There is also a lot of affiliate marketing that if I decide to explain them step by step 100 pages will not be enough. So apart from the resources that I will be giving you I will show you how to make money from affiliate marketing the fast cash style.

First and foremost you must be able to own a click bank account. So to open one, just go over to: www.clickbank.com and open an account with them. I have some reports in the bonus section on how to open a click bank account.

So once your account is opened you just need to pick 2 good products. Pick product in a niche that you are familiar with. One you pick those products that is 80% of the work done. The next stage is to start driving traffic.

I am going to give you a full course that I was taught as a member of a training team where every member paid at least N6,500 to get access to some of this secret. It shows you a full guide on how you can make \$100 a day from blogging and marketing.

ENJOY IT;

Hello,

This is the first strategy of the project bad man techniques. What I am going to do is to show you a strategy that I used and will continue to use to generate massive income daily. I am telling you that you only require two hours a day for 30 days non-stop to use this strategy very well and once you use it, you will be seeing between \$100-\$200 daily every single day.

The only reason that you won't make good income from what I am about to explain is if you don't apply it. So are you ready to start making \$100 continuously starting in 30 from now?

If you ready then let's being!

What I am going to start teaching will take me some days to finish, so that I can explain as much as I can and also for you to be able to follow it step by step. It is called the BLOGGING techniques. but I call it BLOGGING BM strategy. The BM there stands for BUM MARKETING.

As we continue I will explain everything more in details. Just make sure you are following. This course will take very long and also require some video presentation if I was to explain it step by step. So what I will, is this, I will give you some e-book that have cost me about \$127 in all to purchase. You will need to read this e-book from start to finish, step by step. Listen if you don't read these materials then you will not understand as much as you should from bum marketing.

Before everything. Read the material below:

<http://www.newbiecashmachine.com/NewbieCashM.pdf>

and blogging to the bank book that came with this collection

These are two very important materials you must and should study, Especially the first one.

Ok, so let me begin with the theoretical aspect while you will get the practical aspect from the above materials.

HOW TO MAKE \$100 TO 200 USING THE BM AND BLOGGING STRATEGY

There are four simple steps;

- [1] Locate and pick 3 hot products from 3 different markets
- [2] Set-up a blog for each one of them
- [3] Write and submit 90 articles for products, which is 30 articles for each product
- [4] Rise and Repeat.

Those four steps are what you need.

[1] LOCATE AND PICK 3 HOT PRODUCTS:

In a previous post here I have already stated how you can know how products and hot markets. So I won't spend too much time here on that. But once you pick 3 hot markets, for example, investing, home, cars, real-estate, marketing, bad credit, finance, dogs land, scaping. Etc. you will need to go over to <http://www.clickbank.com> and pick 3 different products. That is simple.. or you think that is complicated.

Picking a product means that you are going to sell the product as an affiliate, ok? That means, you sign up at <http://www.clickbank.com> –this should be taken you less than 15 minutes and then take like 1hr or 2hrs to make a good research on the market that you will. Just make sure that you follow the strategies that I explained here:

<http://www.icashnigeria.com/forum/viewtopic.php?f=2&t=3>

Meanwhile before you pick a product, I will advise that you make sure that they are going to be paying you at leas \$20 for every sale that you make, i don't like selling very low priced products. So minimum of \$20 is ok. And after that, ensure the sales letter that of the website you are about to promote is well written. Don't pick a product that the sales letter is not well written.

Just incase you are new to using <http://www.clickbank.com> and you don't know how to pick a product or even register as an affiliate with them. You will need to stop here now and go back to:

<http://www.newbiecashmachine.com/NewbieCasM.pdf>. Then study from page 44 to 52 it comes with pictures so make sure that as you are reading those few pages you have opened

<http://www.clickbank.com> so hat you too can follow it step by step.

If you already have a foreign address, let me know if you have be able to open your on

<http://www.clickbak.com> account.

Once again, go over to: www.icashnigeria.com/forum/viewtopic.php?f=&t=3 and read the article as i

explained it. And then take out like 2hrs and you should be able to come out with at least three niche markets and then pick three products that you are going to sell for each market. Just do that now. In the previous post, I started one of the ways of the BAD MAN strategies of making money regularly online. I know that once you follow those steps, no matter how new you are to the internet, you will be able to come up with at least three products in three different markets that you are going to promote. On the internet every single step you take is very important. People don't make free money online, they work. I have been online for the past 4hrs and I expect to spend like 5 more hours today. Out of those 9hrs, I am not checking my mails, like most people when they get online visiting forums for no reasonable reasons, rather I am working.

You must treat internet marketing as a business and not just a money maker. I said all that, so you don't start saying to yourself, searching for product is hard, it isn't. And remember, every single person was once new to the internet. So even the guru's were once newbie. OK?

[2] SET-UP THREE SIMPLE BLOGS

In the sales letter of project badman I talked about how you can use simple and free blogs to generate at least \$1,000 a month. right? Well that is what I am sharing here. I even remember giving an example of someone a fellow Nigerian like you that uses one blog like <http://www.profitablejobsonline.blogspot.com> to generate \$35 everyday online.

Though how I don't think he makes that much because he does not run the blog anymore, he is spending more time on creating products. But his blogging strategy is real and simple. I am getting close to \$3,600 a month from my 3 blogs, without building a list or creating a product. The same way I am using to get close to \$3,600 a month is what I am explaining to you here. If you follow them, you too will start making that amount or even more. But one thing is sure, if you follow this strategy you will make money. Let's get into step 2 details.

A blog is like an online diary. And one major reason people like it so much is that, it gets people to stay more in a website than a normal webpage. People love information, so in a blog they get such information's. Once you give them some insight about a particular information that they are looking for they are very likely to buy.

There are several blogs around. There is the two most popular WORDPRESS and BLOGGER. Because I promised that you won't spend a dime on his strategy, we will talk about just BLOGGER. Another advantage of blogger is that <http://www.google.com> owns it. That means once people search on a particular information's, using some of the strategies you are targeting gets 5,000 searches a day and out of those searched just 300 visits your blog daily and 4 buy out of the 300 a commission of just \$20 that will mean \$120 everyday from just one traffic generating method alone! The first thing will be for you to open a blogger account. It is free. To do that go over to <http://www.blogger.com>. If you find it hard to open an account with them, go back once again to reading: <http://www.newbiecashmachine.com/NewbieCashM.pdf> and once you get there. Read from page 129 to page 139. These ten pages will show you, how to set-up a blogger account, set-up a blog template and even how to place articles on your blog.

So once again go over to <http://www.blogger.com> and open one blogger account only. Once you set-up your blogger account, you will then open three different domain names under your blogger account all targeting the market or the product you are selling.

For example if the markets that you are targeting are: acne cure, dating, parenting. Your blog domain names could have something like:

www.dateyourspouse.blogspot.com,
<http://www.acnecurein3days.blogspot.com>,
<http://www.parntalcontrol.blogspo.com>

Hope you understand what I mean?

What your blogs will be doing is to provide information's on the market that you are targeting. So make sure you take out time and set-up a nice blog names and templates. Point of correction, you don't have to do all this in one day. You eat an elephant by taking it one bite at a time.

You have selected 3 different products from clickbank and you are ready to sell them. That's a point.

Pick a product that you are ready to sell. Now you have gone to www.blogger.com and you have opened 3 different blogs, one blog for a product. That means 3 blogs selling 3 different products.

Now if you don't have much time online, you can start with just one product, so you can be more focused. You have picked a product and you are now ready to sell them and since we have decided that we are not going to spend a dime, I mean we want to be making \$100 a day without investing anything we have decided that we will use free blogs.

WHY BLOG AND NOT A WEBSITE?

[1] From research, it seems that people will love to stay in a blogger longer than in a normal website, the reason is because, since you are targeting people that are in need of a solution right now. You are selling to people.

Once these people arrive at your website, since it is a blog, they will stay longer so that they can read your articles or watch videos that you have pasted there. Just in case you don't understand what I mean, here is an example of a blog. www.stevpavlia.com.blog ...while a normal website is www.williecrawford.com.

Now among the two, which of them will you spend more time on? The answer definitely is the first one, which is a blog. That means in a blog you are likely to have more sales than in a normal one page website.

[2] Another reason is that for you to use a one page website, you will need an auto-responder account like the one you get from www.getresponse.com which will ask people for their names and emails so that you can build a large database of mailing list. Unfortunately. We don't have time to start spending \$17 every month as www.getresponse.com will charge us.

So we will stick to blogs and blogs alone. Meanwhile you can also put a getresponse link for list building on your blog. If you want to do that, that means you are ready to pay \$17 a month to www.getresponse.com

Once again make sure you read www.newbiecashmachine.com/NewbieCashM.pdf and www.nigeriafastcash.com/bttb2.pdf They will help you a great deal.

The purpose of your blog, is to share informations and then make the readers buy the affiliate products that you are recommending. To that you must....WRITE 30 RICH KEYWORD ARTICLE PER BLOG EVERY MONTH.

Oh my God! I don't like teaching this part because many Nigerians think it is hard but the truth is that it isn't. It only requires dedication and work.

WHY WRITE ARTICLES?

I have a principle that says; don't get involve in something you don't understand how I work. Why should you write articles? The benefits of article writing are numerous. Firstly with your articles you can paste them at ezine directories. Ezine directories are places where people visit daily to search for articles that are related to their health problem. For example, lets assume you picked a product on " how to cure acne in 7 days.

That will mean that if someone who has an acne problem sees an article titled "3 causes of acne and how to prevent them". Such a person is likely to read. So the purpose of article writing is to post them in e-zine directories, so that those who are likely to buy your product can find them, and after reading them...they will...that brings us to the second reason you have o write articles and post them in your blog.

As simple as this might sound it was brining a consistent income of \$35 daily for a blog like www.profiabejobsonline.blogspot.com until it had to be closed down. Your articles will be posted in your blog too, so that your website visitors can read them and then...the final stp visit the merchant website. The merchant website is the website that you are promoting. That means, your website visitor, reads your articles and then land on your blog, and then from your blog...he finds several links that him to definitely click and after clicking he is directed to your merchant website where you then hope and pray he buys.

Listen if you get 80 people to visit your merchant website a day and only two ends up buying, and for a commission of \$25 hat means you will be making \$50 daily....\$50 daily means \$1,500 a month, which means \$18,000 a year...all from one blog and with three blogs that will triple to \$54,000 in one single year!

That is the power of article writing and bum marketing. I prefer you start with 30. Don't start with less and the truth is that, the more articles you write the more money you are likely to make. Your articles are what you will be using to drive traffic to your blog. Sometimes, I like to calculate it this way, one article will bring \$20 for me.

That mean if I write 30 articles I should be expecting \$600 income. That helps to want to write more articles or improve each article that I write.

WHERE DO I GET ARTICLES TO WRITE?

There are several ways to don that. But will state the two most important and quick plus free ways to do that.

[1] The first way is for you to go back to the merchant website that you want to promote and subscribe to his list. Since you have subscribe to his list, he will be sending you articles to lure you to buy his product, remember you are not interested in the product only in the articles he is sending. You can go a step further and subscribe to like 10 websites that are in that niche. This means if each of the websites, send you two articles a week by the end of that week you will have 20 articles at your disposal. What you will do with this article, I will tell you later.

Another way to get articles to use, is by going to ezine directories and picking out articles that other people have written. For example is www.ezinearticles.com. Once you get to the website, find the search box, after locating the search box you will just need to place the word for your market and wait for the results...when I did a search on real estate articles, here was what I got: THEY HAVE MORE THAN 170,000 ARTICLES ON REAL ESTATE.

The final way to get articles is to go to a site like www.free-ebooks.net. What they do is that, they give out ebooks on almost any topic for free. So once you get to the site, do a search on your market and in minutes you will get some ebooks. Just one or two is what you need.

TAKE ONE DAY OFF---SORRY ONE DAY ON

Let me assume that after taking 7 days or so, you have been able to discover 70 articles and 2 e-books.

Now what next?.. Here is what I do. You see you cannot copy an arcle and then go over to search engines or ezine directories and place them, they wont accept it. I mean they would know.

So you will need to tweak your article a bit. This will require just one day of work. Browse through those

70 articles and e-books and write out topics that are similar and hot .e.g things like” 5 ways to buy a house with maximum security”, “How to buy a house with no money down”, “How to sell your house in 30 days”...

The articles you find, the headline a bit and then change the sales letter. Want a practical example? Well that will be next time, for now I need to go and rest. While I expect you to read this article over and over again. I have started something similar too; I will display my result when necessary. Meanwhile see you on Sunday or Monday for the finalization and also I hope to post some5thing very interesting too.

I LOVE TO SEE YOU RICH!!!

So far I have shown you need 30 keywords article for every niche[market] that you have chosen and that the minimum to start with is three.

Writing article is not really a problem as many people see it and in my previous post I have shown you an almost illegal way of generating articles from niche that you are totally unaware of. Once you have generated 30 articles in your first niche, and you should be able to do that in less than 7 days investing 2hrs for each day. Your next plan will be to submit them.

Your articles will need to be submitted in EZINE DORECTORIES, FORUMS and in your BLOG e.t.c Ezine directories are places where millions of people visit daily looking for articles to read and not only that when you write a good article [s] you have a very big opportunity to have you article come up in google. Now imagine a niche where you have 10,000 people searching a niche and your article happens to be among the first ten that comes up whenever someone search for that term in google, you will easily drive thousands of people to your blog without paying google a dime.

But before I continue with this I want to give you a direct link to a \$47 valued e-course that explains more of this in details. **Read it here:**

http://www.bummarketingmethod.com/Article_Marketing.html

the reason I am doing this is not just to get you confused but to prove to you that this technique work like magic and by seeing other gurus doing it, you will be glad. I have information’s that proves that the owner of the e-course above makes \$30,000 monthly using this strategy!. I mean I made up to \$200 on Saturday [2 day ago]. Imagine, that I don’t work on Saturday yet close to \$200 almost dropped in my account. And on Friday I made a set figure of \$179 all from this strategy.

Also remember that the articles you write must be very informative and your headline matters a lot. As you read: http://www.bummarketingmethod.com/Article_Marketing.html you will understand it better. Think about this: an article like “3 ways to buy a house without losing” will generate more readers than “don’t loose money when buying house”. That is self-explanatory

Once you have your articles in hand, Submit 5 of the articles in your blog and submit 25 of the articles in ezine directories. Now there are so many ezine directories but the best of them are:

<http://www.ezinearticles.com>

<http://www.articledashboard.com>

<http://www.suite101.com>

<http://www.phantomwriters.com>

if you have a problem knowing how to submit articles then you go over to

<http://newbiecashmachine.com/NewbieCashM.pdf> and read from page 88 to page 92 [Though you should take time and read the whole ebook later]. Submitting articles takes less than 5 minutes and with a good resource box in place you can make sure that 60% of those who read your articles will be sent or re-directed over to your blog. A principle I want you to note is this, once you submit your article to an ezine directory like <http://www.ezinearticles.com> and they have verified it, go ahead and submit those articles in the other 2 or 3 directories that way you can have more probability of having your article appear on google.com or other ezine directories.

Remember you have submitted like 25 articles in 3 different directories and just 5 articles in your blog.

WHAT DOES THAT MEANS?

It means that for example someone can go to <http://www.google.com> and search for a term related to the market you have chosen and your articles[s] will appear. He reads it through the ezine directory and then he will decide to read more through your blog or not.

It also means that an ezine publisher can also decide to pick your blog and then send it to his mailing list or paste it on its blog. These alone can huge financial difference in one day. Imaging someone with a list of 5,000 people and then he sends your article to his list with your resources box below your article. If just 1,000 of those people visit your article then just 100 of them buy, you will make more than you can even expect.

The principle is to make your articles as informative as you can and the result [financially] will always out way your investment. Also the interesting thing about article writing is that even in months or years to come you will still be getting readers, which always means more sales through your affiliate programs. That means an article that you write today is capable of bring in website visitors[which means money] even in 9 months to come. So ensure you write good and quality article. Period!

Now the article in your blog will to finally resend web visitors to the affiliate website. Every article that you write on your blog will carry at least 5 different link of one of the affiliate program that you are selling. To see an example of this go to:

<http://www.profitableonlinejobs.blogspot.com/>

you can also check

<http://www.profitablejobsonline.blogspot.com>

this people doing this are Nigerians like you and I.

Also remember that your blog should be selling just 2 different products for each blog, you can even start with one affiliate production per blog which mean three blogs selling three different products. My calculation is this if your affiliate product gives you \$20 per sale, and then one of those articles bring in a minimum of one sales that will mean 90 times 20 which means \$1,800.

Now what if you don't believe you can make that amount, what about \$800 will that be cool, and remember if you do this well you will make that figure in less than 30 days. Once you decide that you will put in 2hrs a day, in your first week you should be able to read all the ebooks I asked you to and fully understand them. I mean:

<http://www.nigeriafastcash.com/bttb2.pdf>

<http://www.newbiecashmacine.com/NewbieCashM.pdf>

I guess you are completely new to internet marketing so there is a possible that this thing will look totally strange and unbelievable to you but like I always tell people nobody was born with the knowledge of internet marketing everyone was once...including the father of internet marketing. So get started today.

If you have any question or comment related to this post just ask me and I will make sure I answer them very well. I need to see you make first income online.

Welcome back!

I hope you every word. Don't them confuse you. Just pick one method that you will stick with for the next 30 days, your result is guaranteed. 100%

Need a fast, affordable way to take advantage of the online video revolution?

**"Introducing Video Web Wizard...
The Easy Way For You To Start Using
& Profiting With Online Video!"**

This Software Is So Simple That You Could Have One Or More Streaming Videos On Your Website Just 10 Minutes From Now!

Dear fellow Internet Marketer or Webmaster,

Does it seem like everyone is easily making money online but you seem to struggle making what you should?

Well, today, you have a chance

Simply follow these simple steps to start profiting from your own viral software now!, & Tap Into The Full Potential of Software-Buzz Marketing!

Whether you like it or not, a new kind of internet is here: A "videoized" internet.

Ten years ago, video was not common on the internet.

But today, video is becoming a standard for websites. **(Want proof? Google recently bought YouTube, the online video sharing site, for \$1.65 billion in stock!)**

What does this mean for YOU?

You must ask yourself, if you are going to keep up with the new "video" standard.

Because if you do, you are going to make EASY PROFITS. You see, your customers are READY for online video right now. They have been exposed to the idea already through sites like YouTube and other video sharing sites. And they like it.

All you have to do now is start using online video.

It will spark your visitors' interest and make them pay more attention to you. In other words: PROFIT!

But look at the flip side of that too. If you don't start using video and start catching up with the industry standards, you are going to simply THROW AWAY potential profits. Long-term profits, too.

Maybe you have thought about starting to use online video for your websites, but just haven't done it yet. If that describes you, listen up. I'm about to crack the whip. :)

3 Excuses People Use For Not Taking Advantage of Online Video

Excuse #1: "I just haven't gotten around to it yet."

Bad excuse! If you own a business of any kind, you need to be alert about trends and changes in your industry and be ready to act upon those changes to build your business. If you don't, your business could be left in the dust.

Especially with online businesses and websites. Things move much faster on the internet than they do in the "normal" business world. The internet has changed so much in the past 15 years... it's unbelievable! You must be alert to keep up with it - don't put things off.

Excuse #2: "Making video for my website is too hard, expensive, and time-consuming."

Not true! Nowadays, you can get a decent digital camcorder for less than \$199. And if you have Microsoft Windows XP or higher, your computer is all ready to go with free video editing software called "Windows Movie Maker."

But what if you don't have the budget for a digital camcorder? (Even though it's a great investment) You can still use video to your advantage on your website!

For example, you can just get a \$20 webcam and start using it to record short messages for your website or newsletter. This will build trust with your website visitors or newsletter subscribers. In fact, a lot of online marketers use this technique simply because it works (it seems personal), it's cheap, it's easy, and it's fast!

Excuse #3: "It's too hard and too technical for me to put video on my website."

Not anymore.

This may have been true in the past, but with new solutions like the one I'm about to share with you, you'll never be able to use this excuse again!

Introducing VideoWebWizard!

VideoWebWizard is a new software tool that allows you to easily and quickly convert videos into web format.

Even if you are completely new to computers or just are not good with technology, **don't worry!**

The VideoWebWizard software has a wizard-like functionality. It literally walks you through the few steps to converting **video to website format.**

"How Does VideoWebWizard Work?"

First off, VideoWebWizard converts all the popular video formats and a few, even, that most comparable software programs don't support. VideoWebWizard supports AVI, WMV, MOV, MPG, FLV, VOB, ASF, and MP4 video formats.

(Don't understand all that computer-speak? That's fine, you don't have to. All it means is that you won't find yourself frustrated with VideoWebWizard because it's not able to convert a certain video format!)

VideoWebWizard converts these video files into a file format called "FLV," or "Flash Video." It's a technology that works with almost all computers and web browsers, even computers running on a non-Microsoft operating system like Macintosh or Linux.

By the way, when you see a video on a website, 99% of the time it is probably in Flash video format. Why? Because Flash works almost everywhere, like I just mentioned, and Flash videos usually have a small file size (so they load quickly) while keeping good quality. Many times you can compress a file to 10% or less of its original file size!

Then, after VideoWebWizard automatically converts your video into Flash format, it generates a small web page with your video on it, complete with a player and controls (play, pause, volume, and so on). Upload this page to your website, and you're done!

Are You Saying: "I'm Bad With Computers. Would I Really Be Able To Use VideoWebWizard?"

The answer is a resounding "YES." You'll master VideoWebWizard in no time at all! VideoWebWizard was created with people like you in mind.

After all... if you're like me, you would rather **spend your time working on your business or website** than spending hours trying to figure out complicated procedures or confusing software.

Here, I'll show you. See how easy it really is.

Step 1

In this step, you simply choose your input video file and the output folder for the new web video.

Step 2

Here, you choose settings for the video and audio. (There are several presets that you can choose from)

Step 3

You'll then be asked to choose a player style to use. VideoWebWizard comes with one player and has a link to a [free](#) bonus package that contains eight more players.

Step 4

In Step 4, you'll be able to enter the page & video titles, buffering time, redirect URL, and "Auto-Start Video" setting.

Step 5

VideoWebWizard converts your video in Step 5 and will move to Step 6 after it's done.

Step 6

At Step 6, your new video is created! All you have to do after this is upload the video to your website.

Different Player Styles For Your Different Videos

VideoWebWizard comes pre-loaded with one website video player called "Charcoal." However, I know that you would probably like more style choices for your website players.

So I put together a **FREE bonus package** of eight (8) additional website video players for you, so that there are nine (9) players in total to choose from! (You can access this bonus package by clicking on "Install More Players" button in Step 3 of VideoWebWizard)

Here are some screenshots of all the players.

With VideoWebWizard, You Can...

- Convert Almost Any Video To FLV (Flash) Website Format (AVI, WMV, MOV, MPG, FLV, VOB, ASF, and MP4 Video Formats)
- Manually Control The Quality Settings Of Your New Video (With Video Resolution, Video Bitrate, Audio Bitrate, Video Frame Rate, & More) OR Simply Use One Of The Easy Presets Such As "Cable" Or "Dial-Up"! Choose From A Total Of 9 Website Player Styles (* Once You Install The Free Bonus Player Package)
- Use A "Completion URL" To Automatically Redirect The Viewer To A Website Address After The Movie Has Ended (To An Order Page, Affiliate Link, And So On! This Is A Powerful Feature!)
