ICIPANDE CABUMO – UKUPILIBWILA ILYASHI MU CIBEMBA [20]

Pilibwila ili lyashi mu Cibemba.

The happiest moments of our lives come when we accomplish something that we never expected. The unexpected, however, to be appreciated, should be the resultant of our personal efforts. I remember when I was still in Grade 10 how I used to fail in almost all the subjects. In Grade 11, my performance became even worse. There was no single subject in which I got above 50%. I was never free to mingle with my peers especially when they would bring in school related stories.

It was during the December holiday that I sat down and reflected. I thought about how my parents had suffered and sacrificed a lot just to see me forge ahead with my school. This was my turning point. I could not wait for schools to re-open. My final year surprised many. Both the teachers and my fellow learners were very amazed at my performance. Here I am, studying medicine at the University of Zambia.
