

MINISTRY OF EDUCATION
PRIMARY ENGAGEMENT PROGRAMME
GRADE ONE - TERM 2
SUBJECT: MATHEMATICS
WEEK-1 LESSON-2
TOPIC: EQUAL SETS

NAME: _____ DATE: _____

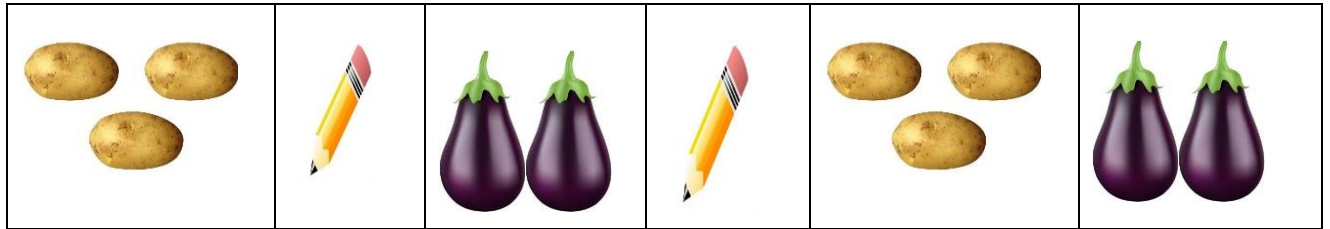

TIPS/FACTS: Equal sets are sets that have the same kind of elements and the same number of elements¹ in each set.

PRACTICE EXAMPLE: Look at the table. Make a pair of equal sets. Use the sign (=) to show the sets are equal.

ON YOUR OWN:

Use the objects in the table to make equal sets. The equal sign (=) is already in place.

HOMEWORK: Complete table below to show equal sets.
