

MINISTRY OF EDUCATION  
PRIMARY ENGAGEMENT PROGRAMME  
GRADE ONE-TERM 2  
SUBJECT: MATHEMATICS  
WEEK- 4 LESSON 2  
TOPIC: ODD NUMBERS

NAME: \_\_\_\_\_ DATE: \_\_\_\_\_

**TIPS/FACTS:** Odd numbers are numbers that cannot be divided exactly by 2.

**PRACTICE EXAMPLE:** Circle the set of objects that has odd numbers only.

The image shows a rectangular box containing two sets of objects. On the left is a 4x6 grid of 24 green circles. On the right is a large circle containing a set of 28 blue squares arranged in seven rows: 4, 3, 4, 3, 4, 4, and 3 squares per row respectively.

**ON YOUR OWN:**

**Count and write the numbers of objects.**

Circle the set of objects that has odd numbers.

(A)

(B)

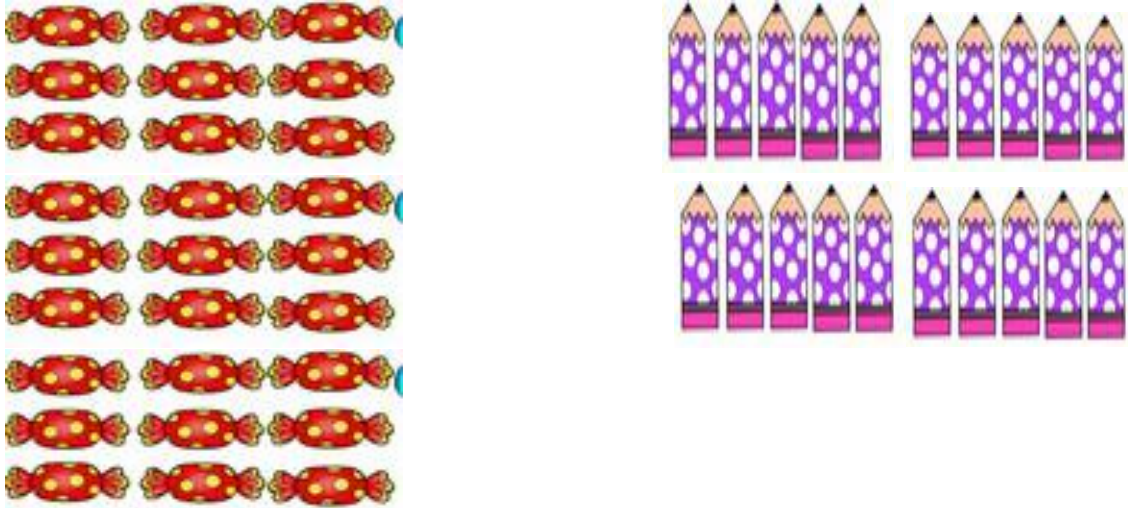

(C)

# HOMEWORK:

Count the objects then circle the set of objects that is an odd number.

(a)

The first set contains 24 red candies arranged in 8 rows of 3. The second set contains 20 purple pencils arranged in two rows of 10.

(b)

The first set contains 30 pink cats arranged in 5 rows of 6. The second set contains 18 cars arranged in four rows: 5 cyan and 3 yellow in the first row, 4 cyan and 4 yellow in the second, 3 cyan and 5 yellow in the third, and 4 cyan and 4 yellow in the fourth.
